

Date: 28 August 2024

Subject: Adverse Weather preparation for 29 August 2024

All Shipping Agents operating in the Port of Fremantle are to note the following

Bureau of Meteorology weather forecasts indicate an adverse weather event effective for 29 August 2024 for Perth coast, Perth Local waters and Lancelin coast.

To ensure good risk management during the adverse weather and in the interests of Port, Terminal infrastructure and Vessel safety, the following will be implemented in preparation for the adverse weather

- Vessels from KBJ, KBT, Alcoa and ORJ berths will be moved to anchorage for the period of impact in the order scheduled by the Fremantle Ports' schedulers, in preparation for the adverse weather. All charges for unberthing / berthing pilotage and towage shall be to the vessel's account. Vessels will return to berth when weather conditions improve.
- Vessels in the Inner Harbour will be required to vacate berths as assessed by Fremantle Ports based on wind directions and period of impact. Vessels >310m will not be permitted to berth during this period.
- Preparations for the adverse weather will commence on Wednesday - 28 August 2024. The above conditions will cease to apply once the weather conditions improve.

Your co-operation in this matter will be much appreciated.

Capt. Savio Fernandes

Harbour Master
